

7.1 Users

The **Users** page displays the various tasks of all the users working on the selected project.

Access the Observer Dashboard page for users

Select the **Observe Users** menu.

The **Observer Dashboard** for users page displays the statuses of various tasks of the users working on the project. As an Observer in ExamDeveloper, you can observe the following aspects of the project that you are working on from the **Observer Dashboard** page:

1. The duration of the project and the number of days assigned to complete the project.
2. Blueprint status (according to the tally level selected from the **Blueprint Level** drop-down).
3. Metadata created for the items.
4. The user can retrieve information about a project based on:
 - a. Metadata
 - b. Writers
 - c. Reviewers
 - d. Validators
